SPECIAL FINANCING
24-months
0% interest OAC

Limited Time Offer! Special Financing 24 months at ZERO interest OAC!

Straighter teeth can lead to:

Healthier Gums – Invisalign® aligners are removable so patients can brush and floss normally which can help prevent periodontal disease and tooth decay. Research has shown that gingival health may improve during Invisalign® treatment.

Easier Cleanings – The chances of having plaque retention, tooth decay and periodontal disease can be reduced with properly positioned teeth. Straight teeth are easier to keep clean, so you will have less risk of oral health problems.

Less Stress – Properly aligned teeth are less stressful on the supporting bone and provide better function. Invisalign® offers an alternative to aggressive, restorative solutions for orthodontic problems.
